

MARKET INTELLIGENCE

Catalogue 2025

www.idate.fr | market.intelligence@idate.fr

CONNECTING TOMORROW'S TRENDS

Our **Market Intelligence Programme** delivers an international view of today's outstanding tech disruptions, for both the ICT industry and traditional sectors in the throes of a digital transformation.

Our reports thus provide our readers with a concise state of the art of today's markets, along with estimates and forecasts for **the next five to ten years!**

KEY AREAS OF EXPERTISE

- Market analysis (competition, demand)
- Understanding regulation
- International coverage
- Technological expertise
- Special focus on innovative players
- Economic modelling

6
collections

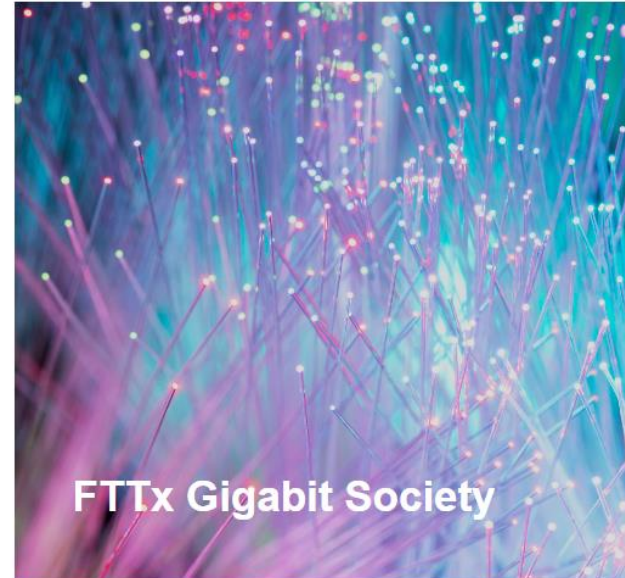

200

THE OBSERVATORY OF INNOVATION MARKETS

Wireless 5G Collection

- Explore IDATE's Wireless 5G collection to discover the latest advances in 5G.
- Analyze how operators are investing in this technology and anticipate its impact on mobile connections by 2025.
- Explore its potential in vertical markets and its role in security issues.
- Discover key markets in the short and medium term and how 5G innovations are paving the way for new markets.

5G MARKETS, SPECTRUM, SLICING, FWA,
PRIVATE NETWORKS, RAN, CAPEX

2025 Publications	Date of publication*
<i>Report +DB World 5G Markets - 2H2025</i>	<i>Q1 2026</i>
<i>Report LEO satellite vs mobile</i>	<i>Q4 2025</i>
<i>Report +DB World 5G Markets - 1H2025</i>	<i>Q3 2025</i>
<i>Report Market dynamics: Investments, players, and partnerships (M&A activity)</i>	<i>Q3 2025</i>
<i>Report 5G small cells and neutral host models</i>	<i>Q2 2025</i>
<i>Report 6G and societal impact</i>	<i>Q1 2025</i>
Report OSS/BSS for 5G	1H 2025
Report 5G for sustainability	1H 2025

Previous years' publications	Date of publication
Report +DB World 5G Markets - 2H2024	1H 2025
Report +DB World 5G Markets – 1H2024 - Sample report 1 – Sample report 2 – Database DEMO	2H2024
Report Comparing the main 6G initiatives	2H2024
Report Consolidation of players and of infrastructures in Europe	2H2024
Report Integration satellite 5G	2H2024
Report E-Sim: technological evolution and market sizing - interoperability	1H2024
Report Mmwave Use Cases 5G	1H2024
Report Monetization of 5G	1H 2024
Report + DB World 5G Markets – 6G Initiatives – Key facts and numbers – market coverage and technology - Data and forecasts up to 2028 – Database DEMO	1H 2024
Report World 5G Markets – 6G initiatives - Investments, spectrum and next phase – Database DEMO	2H 2023
Report New frequencies for mobile ahead of WRC 23 and towards 6G	2H 2023
Report Telco's Wireless Macroeconomic Trends 2023	2H 2023
Report + DB Private 5G networks tracker – Analysis of current deployments	2H 2023
Report World 5G Markets – Key facts and numbers – Market coverage and technology	2H 2023
Report + DB World 5G Markets – 6G Initiatives – Data and forecasts up to 2028	2H 2023
Report 5G indoor: Demand analysis	2H 2023

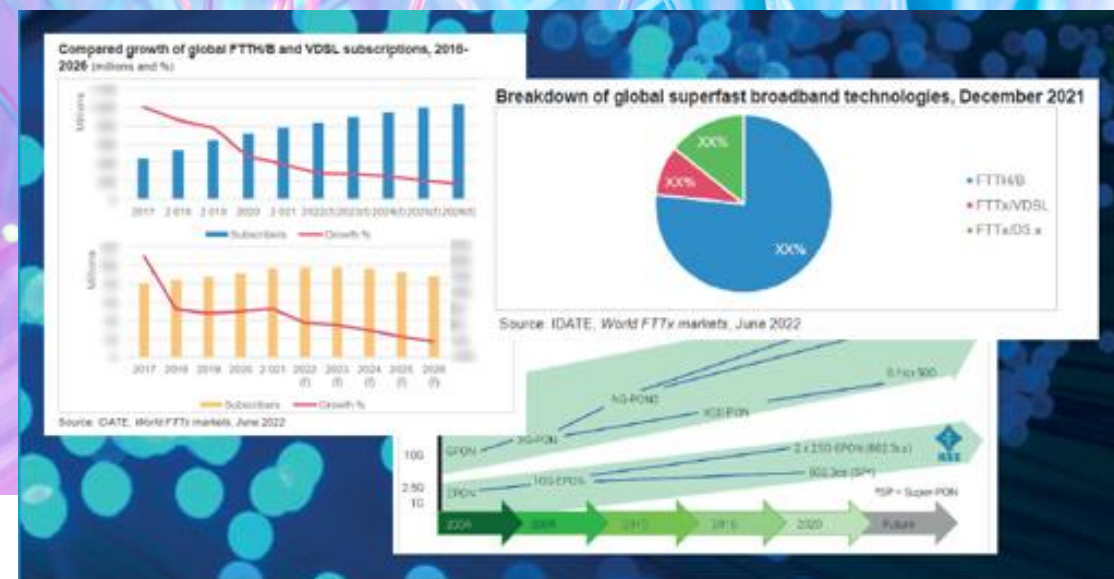

* Titles and scheduling of upcoming publications are indicative – contact us for more details: market.intelligence@digeworld.org

FTTx & Gigabit Society Collection

- Explore the challenges and opportunities for FTTx solutions amid the rise of mobile broadband technologies in developing countries.
- Dive into the analysis of the new economic models of FTTH operators, the impact of the deployment of G.Fast, the role of 5G and FTTH networks in the convergence of services, as well as the involvement of government organizations in their development .
- Decipher public funding, cost structures and the evolution of the supply model in this era of the Gigabit Society.

FTTX, XDSL, CABLE/DOCSIS, REGULATION, WHOLESALE, SDN/NFV, FUNDING OF PPP, COPPER SWITCH OFF

Enabling Digital Technologies Collection

- Anticipate the key technologies that will shape our future by 2030 and discover how robotics, deep learning and quantum computing will bring real-world benefits to diverse sectors and transform current business models.
- Explore the timeline for adoption of extended reality technologies, such as augmented reality, virtual reality, and mixed reality.
- Learn how future mobile infrastructures, such as edge computing, slicing and 5G, will be catalysts to accelerate digital transformation.

ARTIFICIAL INTELLIGENCE, BLOCKCHAIN, ROBOTICS,
QUANTUM COMPUTING, EDGE COMPUTING, 6G

Smart Verticals & IoT Collection

- Access in-depth analysis of opportunities in Internet of Things (IoT) verticals.
- Discover the qualitative and quantitative perspectives of IoT in sectors such as automotive (including autonomous), healthcare, agriculture, smart building, transportation and logistics.
- Identify key use cases in each vertical and explore key markets for solution providers, including hardware, connectivity, platforms and services.
- Analyze key players in the IoT ecosystem and understand how telecom operators are positioning themselves beyond M2M markets.

CELLULAR M2M, INCLUDING 5G AND LPWA, VERTICAL IOT MARKETS, IOT PLATFORMS, TELCOS STRATEGIES

Digital Economy Collection

Access a detailed analysis of regional trends in the telecoms and Internet sector.

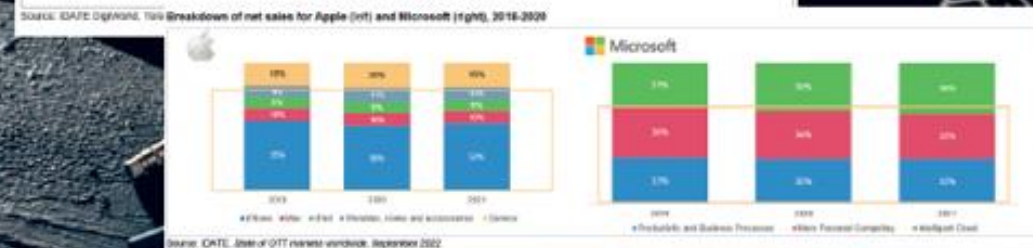

- Learn about the strategies of major OTT players, including platforms, and understand their impact on market developments.
- Question the future position of Europe in the digital landscape in 2030, taking into account the rise of Chinese players and American dominance in software.
- Identify innovative players that could disrupt established ecosystems and analyze how traditional sectors, such as commerce and media, are affected by digital development.

OTT MARKETS, TELECOM MARKETS AND PROSPECTIVE,
DIGITAL GEOPOLITICS, DISRUPTIVE PLAYERS
